

## Part 3: CAS Evidence

*(Your proof — be creative and thoughtful)*

Include a variety of evidence for each experience:

- **Photos/videos** (with captions and reflections).
- **Journal entries, blog posts, or vlogs.**
- **Supervisor notes or feedback.**
- **Certificates, posters, or artifacts you created.**
- **Screenshots (if online collaboration/service was involved).**
- **Voice recordings, artwork, or other creative outputs.**

For each piece of evidence:

- Add a **short reflection** (Why does this evidence matter? What does it show about your learning?).
- Link it clearly to **CAS Learning Outcomes.**
- Make sure the evidence is **authentic and meaningful**, not just proof that “I was there.”

***Evidence is not about quantity, but quality. Show depth, creativity, and growth.***
