Position labels consistently – either all below or beside the artwork.

Use a clean, legible font (e.g., Arial, Helvetica, Times New Roman, 12–14pt).

Keep labels at eye level and aligned for a professional look.

Ensure labels are securely attached and won't damage artworks.  
Avoid excessive decoration or elaborate fonts – clarity is key.

### **Final Check Before Display**

- ☐ All labels are correctly formatted and contain accurate information.
  - ☐ Labels are evenly placed and aligned with artworks.
  - ☐ Information is clear and readable from a reasonable viewing distance.
